

ROBYN SCOTT

Robyn Scott Interiors Limited
152 Basalt Center Circle, 970-927-5354

"I have found that recent clients have been asking for contemporary interiors with a natural feel. We have been pairing organic sculptural accent pieces with contemporary furnishings to achieve this modern, organic look. The beauty of this is that it lends itself to a variety of regions—I'm currently using this design on the Trump Ocean Resort in North Baja, Mexico, as well as in custom homes in Aspen."

STASCHA KAELIN

"Silhouettes are closer to the body this ski season—no puffy big jackets like the Michelin Man. Try fleece cardigans instead of sweaters in colors like brown, olive, khaki, and orange. Plaids are very important. And don't forget skis to match the outfit, like Pucci and Castelbajac. For the golf season, plaids and madras are everywhere. Capris still win out over long pants—everything from Bermudas and pedal pushers to clam

Pitkin County Dry Goods

970-925-1681

"The skinny silhouette is big—especially jeans in cleaned-up dark denim. Wear them with a long sweater or a layered tunic. Voluminous shapes, such as bell and trapeze cuts, counter-balance the slim pant. Top it off with a cropped shearling jacket; textured tights and leggings complete the look. In accessories, a wide belt is fabulous with sweater dressing, as is a skinny belt worn high with an empire-cut top. Gold jewelry is hot and a long link necklace is a must, as is a chunky knit hat or trapper, a striped or plaid scarf, and an oversized leather handbag. To promote peace, wear something with a peace symbol on it!"
